Isha Rao

Backend Engineer | Hyderabad, India

isha.candidate@hirepilot.example

PROFILE

Backend engineer interested in dependable APIs, transactional systems and database performance.

SKILLS

Java, Spring Boot, Go, PostgreSQL, MySQL, Redis, REST APIs

EXPERIENCE

Backend Engineer | Meridian Systems (fictional) | Jul 2022 - Present

Developed versioned REST APIs with Java and Spring Boot for operational workflows.

Designed transactional data models, idempotent handlers and background processing retries.

Investigated slow queries with execution plans and added integration tests for failure recovery.

PROJECT

Backend Engineer portfolio project

Built a sample service-workflow application, documented design decisions, and tested the core user journeys.

EDUCATION

Bachelor's degree | Example Institute of Technology (fictional)

DEMO PROFILE

Fictional candidate and work history created for HirePilot product testing. Not a real person's resume.
